

Atascadero, CA – Today, in response to the U.S. Postal Service’s decision to allow the Paso Robles Post Office to put the photos of local soldiers serving abroad back up, Congressman McCarthy released the following statement:

“We got it done. We spoke and the post office listened. I thank the Postal Service for realizing the importance of honoring our local soldiers’ sacrifice and being accountable to our community’s desire to keep those photos up in support of our local men and women serving in uniform. I am continuing to work with the United State Postal Service to make sure this doesn’t happen again.”
